This Tournament Allowances Table will be used to determine tournament allowances for each referee traveling from one area to another. Referees traveling from the same area will receive the same amount of tournament allowances whether they drive or not. This Tournament Allowances Table may be revised at any time as the need arises to remain solvent. Tournament allowances are "capped" at **\$90.00** the maximum amount per referee for the first day of a tournament. Local referees will receive a minimum of \$15.00 for the 1st day of a tournament. "All" referees will receive an additional \$25.00 for participating in the 2nd day of a 2-day SU tournament. **All travelers within a traveling party should pitch in to share their travel expenses.**

The maximum initial travel allowance is \$85.00 (Calculated by 1-way mileage x \$0.25). So, anything over 340 miles (1-way) will be capped at \$85.00! In the past, drivers were allotted an additional 1/4 of their initial travel allowance for each additional passenger (up to 4 additional passengers). Your out of area allowance (per diem) was also calculated using 1-way mileage x \$0.25, but is capped at \$50.00. So, any travel over 200 miles is capped.

Your travel allowances - now called Tournament Allowances is calculated as follows:

One-way mileage x \$0.25 = Travel Allowance x 1.75 (additional allowance for 3 additional passengers) = Total Travel Allowance. This is what drivers were paid in the past. Now, the Total Travel Allowance is divided by 4 travelers. So, everyone traveling from one area all receives the same amount whether they drive, fly or ride with someone. Your out of area allowance is added to this travel allowance to come up with your Tournament Allowance.

All Tournament Allowances have been rounded up to the next \$5.00 increment (e.g., \$35.93 is rounded up to \$40.00; or \$80.62 goes up to \$85.00!) Local referees will now receive a \$15.00 Tournament Allowance. All referees who officiate 2 days in a 2-day tournament receive an additional \$25.00!
